# Co2 Laser SF 1390i

More easily choice for laser cutter, more faster than your competitor.

- Professional accessories is suitable for various processing such as aluminum alloy honeycomb bottom board, metal lattice with different gaps and negative pressure adsorption device for soft materials. More suitable for the working requirements.
- The new software is matched to AutoCAD, Corel Draw, all other graphics processing softwares for outputting original graphics. Advanced color management supports any color and defines engraving sequence fulfilling one time or whole output.

## Technical Parameters

Modal	SF 1390i / SF 1410i / SF 1610i
Working Area	900*600mm / 1300*900mm / 1600*1000mm
Laser Power	60W - 150W
Positioning Accuracy	± 0.05mm
Working Voltage	AC 110-220V ±10%, 50-60 Hz
