about us.

ACXUS SDN BHD has been a leading provider of comprehensive large format printing solutions and services for various applications in the Sign & Graphics and Industrial markets. Our cutting-edge automation technologies in Digital Printing Machines and Cutting Equipment help minimize manpower, time, and costs, ultimately increasing your business's profitability. Additionally, we offer a wide range of Inkjet Printing Materials & Portable Display Systems, including standard and high-end special media, ensuring that our customers have the right equipment for their specific business needs. Our services also include training and support to ensure our customers get the most out of their investment.

Established in Malaysia in 2001, Acxus Malaysia has been dedicated to providing top-quality printing materials under the JETA Brand. Our commitment to product quality and service excellence has been unwavering, earning us a reputation for reliability and excellence in the printing industry. Over the years, we have evolved into a leading provider of large-format printing solutions, thanks to our relentless pursuit of quality and innovation in printing technology.

In 2017, Acxus Malaysia was appointed as the distributor for MIMAKI , IECHO & RUK printers and digital cutting plotters, expanding our product range to include a full range of printers and post-finishing equipment. These machines are designed to operate 24/7, offering flexibility, precision, durability, and speed in finishing solutions, ensuring that your investment delivers value and high-quality results for your business.

At Acxus Malaysia, we are committed to providing the best products and services for your business, with a focus on quality and customer satisfaction. Our ultimate goal is to make it easier for you to run your business with peace of mind, knowing that we are here to support you every step of the way.
